

Press release

U3O8 Corp. shareholders approved all matters at annual & special meeting

Toronto, Ontario – July 29, 2015 – **U3O8 Corp. (TSX: UWE; OTCQX: UWEFF; SSE: UWECL)**, a Canadian-based company focused on exploration and resource expansion of uranium and associated commodities in South America, reported that the nominees listed in its Management Information Circular were elected as directors of the company at its Annual and Special Meeting held on July 29, 2015 (the “Meeting”). In addition, KPMG LLP was re-appointed as U3O8 Corp’s auditors, and the company’s Share Incentive Plan was approved. The detailed results of the management proxy votes received for each director were as follows:

Elections of Directors	Votes For	% of Votes	Withheld
Keith Barron	67,015,383	99.8%	125,907
David Constable	66,981,056	99.8%	160,234
David Franklin	66,970,415	99.8%	170,875
Pablo Marcet	67,005,828	99.8%	135,462
John Ross	67,034,028	99.8%	107,262
Richard Spencer	66,998,215	99.8%	153,075

The formal report on the voting results from the Meeting will be filed on SEDAR at www.sedar.com.

About U3O8 Corp.

U3O8 Corp. is focused on exploration and development of uranium resources and associated commodities in South America. The company’s uranium resources comprise three deposits defined in accordance with National Instrument 43-101 located in Argentina, Colombia and Guyana:

- **Laguna Salada Deposit, Argentina** – a preliminary economic assessment (“PEA”) shows this near surface, free-digging uranium, vanadium deposit is potentially amenable to low-cost mining and processing methods;
- **Berlin Deposit, Colombia** – a PEA shows that Berlin could be a potential low-cost uranium project thanks to revenue from by-products of phosphate, vanadium, nickel, rare earths (yttrium and neodymium) and other metals occurring in the same deposit; and
- **Kurupung Deposit, Guyana** – an initial uranium deposit in a large emerging uranium district.

Forward-Looking Statements

Certain information in this release are forward-looking statements with respect to the development plans and economic potential of U3O8 Corp's current projects. Forward-looking statements consist of statements that are not purely historical, including statements regarding beliefs, plans, expectations or intentions for the future, and include, but not limited to, statements with respect to: (a) the low-cost development goal of Laguna Salada, (b) the Laguna Salada and Berlin PEAs, and (c) the potential of the Kurupung district in Guyana. Basis for such assumptions include that: (i) actual results of our exploration, resource goals, metallurgical testing, economic studies and development activities will continue to be positive and proceed as planned, and assumptions in the Laguna Salada and Berlin PEAs prove to be accurate, (ii) requisite regulatory and governmental approvals will be received on a timely basis on terms acceptable to U3O8 Corp., and (iii) economic, political and industry market conditions will be favourable. However, such statements are subject to risks and uncertainties that may cause actual results, performance or developments to differ materially from those contained in the statements, including, but not limited to: (1) that a mine will be achieved on the Laguna Salada Project, the Berlin Deposit and other exploration projects, (2) that beneficiation test work will continue to be favourable and results from small scale metallurgical testing can be duplicated on a larger scale, (3) the inherent uncertainties and speculative nature associated with exploration results, resource estimates, potential resource growth, future metallurgical test results, changes in project parameters as plans evolve, (4) volatility of commodity prices and market conditions for uranium; (5) dependence on regulatory approvals and changes in legislation, environmental compliance, community support and the political and economic climate, (6) availability of future financing, and (7) exploration risk and other factors beyond the control of U3O8 Corp. including those factors set out in the "Risk Factors" in our Annual Information Form available on SEDAR at www.sedar.com. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. U3O8 Corp. assumes no obligation to update such information, except as may be required by law. For more information on the above-noted PEAs, refer to the September 18, 2014 technical report titled "Preliminary Economic Assessment of the Laguna Salada Uranium-Vanadium Deposit, Chubut Province, Argentina" and the January 18, 2013 technical report titled "U3O8 Corp. Preliminary Economic Assessment on the Berlin Deposit, Colombia."
